

FITZROY ISLAND ADVENTURES

ABOUT FITZROY ISLAND ADVENTURES

This spectacular island is easily accessible from Cairns and features an array of beautiful natural features – such as an immense range of marine life and coral species – that make visiting a dream.

Unlike smaller coral cays or sandy islands on the Great Barrier Reef, Fitzroy Island was once part of mainland Australia. The island is largely untouched and protected as Fitzroy Island National Park, with walking tracks through the rainforest, heathland and open forest to Nudey Beach and the Summit.

UNIQUE SELLING POINTS

- Flexibility of 3 departure times
- Activities for all ages
- On board Marine Biology presentations daily
- Ideal for both swimmers and non-swimmers
- Rainforest boardwalks
